

**COMPOSITION FOR DYEING KERATINOUS FIBRES WITH A
CATIONIC DIRECT DYE AND A QUATERNARY AMMONIUM SALT**

The invention relates to a composition for dyeing keratinous fibres, in particular human keratinous fibres such as hair, comprising, in an appropriate dyeing medium, at least one cationic direct dye of a given formula, and which is characterized in that it contains, in addition, at least one quaternary ammonium salt.

The invention also relates to the dyeing methods and devices using it.
